- ▶ anchor well and anchor warp chaffing strip
- ▶ heavy duty grab ropes
- ▶ anti-slip deck grip
- ▶ solid carry handles
- ▶ three air chambers
- ▶ VALMEX® PVC

Divesport 350

The performance utility RIB

The Dive Sport 350 is easily handled for diving and fishing and sturdy enough to tow the kids waterskiing, yet light weight and a perfect tender option for bigger boats.

The Divesport fills the void between portable tender and serious trailer boat. It features a solid false floor and can take up to 30hp of engine, but weighs only 63 kilograms, making it a versatile general purpose utility craft.

Three separate air chambers across the 420mm tapering tubes make the Divesport extremely seaworthy and capable of carrying the whole family safely.

NZL*

Made by Kiwis for Southern Pacific conditions based on our first-hand experience. Trust the brand that we build for you and your family with pride.
